ABOUT ME

I'm a junior React developer and I've been learning Front-end web development for the last two years on my own. Some of the resources that I use for learning are platforms like Udemy, Pluralsight, YouTube, w3schools.com, freeCodeCamp.org, codepen.io, 30secondsofcode.org etc. Every day I'm working on real projects where I'm applying everything learned so far. I like challenges and I like to learn new things that I can use to solve problems.
